## Research Experience

---

- 2015    **Ph.D., A study of Post Secondary School Student's Stress In Relation To Their Attributional Style and Ecology of Classroom.**  
Psychological stress is a major problem of the present era, especially for the student population. Any situation that evokes negative thoughts and feelings in a person such as unpleasant, frustrating, irritable, worrisome and anxious is considered psychological stress. The sample was selected using random sampling techniques. The total sample size was 821 students studying in std. XI (HSC, Maharashtra State Board) Junior College of Greater Mumbai.
- 2007    **M.Ed., A Study of Course Related Stress of B.Ed students in Relation to their Presage Characteristics.**  
Academic Stress is faced by students when they enter the course. B.Ed is the course where students enter with their different presage characteristics. There is a relationship in academic stress and presage characteristics of B.Ed. students. The sample was selected using random sampling techniques. The total sample size was 200 hundred B.Ed. students.
